

General Social Survey (Time Use) 2022

PUMF

Table of Contents

<u>Variable</u>	<u>Position</u>	<u>Description</u>	<u>Page</u>
PUMFID	0001-0006	PUMF Record identification	11
WGHT_PER	0007-0016	Person weight	11
SURVMNTH	0017-0018	Survey month of data collection	11
EQFLAG	0019-0019	Survey collection mode	12
PRV	0020-0021	Province of residence	12
LUC_RST	0022-0022	Population centres indicator	13
REGION	0023-0024	Region of residence of the respondent	13
HSDSIZEC	0025-0025	Household size of respondent (capped)	14
AGEGR10	0026-0027	Age group of respondent (groups of 10)	14
GENDER2	0028-0028	Gender (2) after distribution of the non-binary persons	15
MARSTAT	0029-0030	Marital status of the respondent	15
PHSDFLG	0031-0031	Respondent has a spouse/partner in the household	16
AGEPRC	0032-0033	Age group of respondent's spouse/partner (collapsed)	16
GENPR2	0034-0034	Gender of spouse/partner after distribution of the non-binary person	17
COUPGEN2	0035-0035	Gender+ of household couple	17
CHH0017C	0036-0036	Number of child(ren) in household - 0 to 17 years (capped)	18
CHH0004C	0037-0037	Child(ren) in household - 0 to 4 years (flag)	19
CHH0514C	0038-0038	Child(ren) in household - 5 to 14 years (flag)	19
CHH1517C	0039-0039	Child(ren) in household - 15-17 years (flag)	19
CXRFLAG	0040-0040	Child(ren) of respondent living in household	20
PARNUM	0041-0041	Number of parents the respondent has in household	20
SENFLAG	0042-0042	Senior(s) (age 65 and over) in household	21
MULTIGEN	0043-0043	Three generations or more in the respondent's household	21
DDEV_FL	0044-0044	Disability indicator - Developmental	22
DDEX_FL	0045-0045	Disability indicator - Dexterity	22
DFLEX_FL	0046-0046	Disability indicator - Flexibility	23
DHEAR_FL	0047-0047	Disability indicator - Hearing	23
DLRN_FL	0048-0048	Disability indicator - Learning	24
DMEM_FL	0049-0049	Disability indicator - Memory	24
DMENT_FL	0050-0050	Disability indicator - Mental health-related	25
DMOB_FL	0051-0051	Disability indicator - Mobility	25
DPAIN_FL	0052-0052	Disability indicator - Pain-related	26
DUNK_FL	0053-0053	Disability indicator - Unknown disability	26
DVIS_FL	0054-0054	Disability indicator - Seeing	27
DDIS_FL	0055-0055	Disability status	27
DTYPER	0056-0056	Disability type counter - Grouped	28
DCLASS	0057-0057	Global (disability) severity class	28
TCS_110	0058-0058	Perceptions of time - Plans to slow down	29
TCS_120	0059-0059	Perceptions of time - Workaholic	30
TCS_130	0060-0060	Perceptions of time - Tends to cut back on sleep	30
TCS_140	0061-0061	Perceptions of time - Not accomplishing what you set out to do	30
TCS_150	0062-0062	Perceptions of time - Not spending enough time with family or friends	31
TCS_160	0063-0063	Perceptions of time - Constantly under stress	31
TCS_170	0064-0064	Perceptions of time - Trapped in daily routine	32
TCS_180	0065-0065	Perceptions of time - No time for fun	32
TCS_190	0066-0066	Perceptions of time - Stress when there is not enough time	33
TCS_200	0067-0067	Perceptions of time - Would like more time alone	33
TIMECR	0068-0069	Time crunch indicator	33
UH_01	0070-0075	Unpaid service - Looking after children from your household	34
UH_02	0076-0081	Unpaid service - Looking after children from other households	34
UH_03	0082-0087	Unpaid service - Household chores for your household	35
UH_04	0088-0093	Unpaid service - Household chores for other households	35
UH_05	0094-0099	Unpaid service - Care of seniors in your household	36
UH_06	0100-0105	Unpaid service - Care of seniors from other households	36
CHLD_01C	0106-0106	Childcare - Weekday - Physical care (collapsed)	37
CHLD_02C	0107-0107	Childcare - Weekday - School related (collapsed)	37
CHLD_03C	0108-0108	Childcare - Weekday - Leisure activities (collapsed)	38
CHLD_04C	0109-0109	Childcare - Weekday - Accompanies (collapsed)	38

TU 2022 - Data Dictionary

CHLD_05C	0110-0110	Childcare - Weekend - Physical care (collapsed)	39
CHLD_06C	0111-0111	Childcare - Weekend - School related (collapsed)	39
CHLD_07C	0112-0112	Childcare - Weekend - Leisure activities (collapsed)	40
CHLD_08C	0113-0113	Childcare - Weekend - Accompanies (collapsed)	40
LSM_01	0114-0115	Subjective well-being	41
GEN_01	0116-0116	Self rated health	41
GEN_02	0117-0117	Self rated mental health	42
SRS_10	0118-0118	Self Rated Stress - Amount	42
MSS_130	0119-0120	Main Source of Stress	43
ACT7DAYC	0121-0121	Main activity - Last week (collapsed)	43
MRW_05C	0122-0122	Main activity - Last 12 months (collapsed)	44
MRW_D40A	0123-0123	Worked in the last 12 months	45
MRW_D40B	0124-0124	Worked last week	45
WET_120	0125-0125	Job type during weeks employed	45
WHW_110	0126-0126	More than one paid job last week	46
WHW_230	0127-0128	Usual work schedule at main job	46
WHWD140G	0129-0130	Hours worked at all jobs in a week (grouped)	47
TLWK_01A	0131-0131	Telework last week - From home	47
TLWK_01B	0132-0132	Telework last week - Co-working space	48
TLWK_01C	0133-0133	Telework last week - Other location	48
TLWK_01D	0134-0134	Telework last week - Did not do any teleworking last week	49
TLWK_02G	0135-0135	Telework last week - Paid hours (grouped)	49
TLWK_03	0136-0136	Preferred amount of teleworking in work schedule	50
TLWK_04	0137-0137	Telework aspects - Organize own working hours	50
TLWK_05	0138-0138	Telework aspects - Video conferencing	51
TLWK_06	0139-0139	Telework aspects - Avoid the commute	51
TLWK_07	0140-0140	Telework aspects - Reduce business trips	52
TLWK_08	0141-0141	Telework aspects - Time with family or pets	52
TLWK_09	0142-0142	Reason for not teleworking in the last week	53
WLYD170G	0143-0144	Distance from residence to workplace (grouped)	53
NAIC22CY	0145-0146	NAICS 2022 (20 categories) - Last year	54
NOCLBR_Y	0147-0148	NOC 21 (10 categories) - Last year (the variant)	55
WFS_10	0149-0149	Work flexible schedule	56
SRC_10	0150-0150	Satisfaction with current balance between job and home life	56
SRC_20A	0151-0151	Dissatisfaction - Job/home - Not enough time for family	57
SRC_20B	0152-0152	Dissatisfaction - Job/home - Spends too much time on job/main activity	57
SRC_20C	0153-0153	Dissatisfaction - Job and home - Not enough time for other activities	58
SRC20EGR	0154-0154	Dissatisfaction - Job/home - Employment related reasons (grouped)	58
SRC_20F	0155-0155	Dissatisfaction - Job/home - Health reasons	59
SRC20HGR	0156-0156	Dissatisfaction - Job/home - Other reasons (grouped)	59
WLB_10	0157-0157	Work-life balance - Difficulty because of the job - 12 months	60

Variable Name: GENDER2 **Length:** 1.0 **Position:** 28

Question Name:

Concept: Gender (2) after distribution of the non-binary persons

Question Text:

Universe: All respondents

Note: Given that the non-binary population is a small population, data aggregation is necessary in order to protect the confidentiality of responses provided by respondents. Most information from the Time Use Survey 2022 is disseminated using a two-category gender variable. In these cases, individuals in the category 'non-binary persons' are distributed into the other two gender categories and are denoted by the '+' symbol.

The category 'Men+' includes men (and/or boys), as well as some non-binary persons.

The category 'Women+' includes women (and/or girls), as well as some non-binary persons.

Source: Time Use Survey, 2022, derived from GDR_10.

<u>Answer Categories</u>	<u>Code</u>	<u>Frequency</u>	<u>Weighted Frequency</u>	<u>%</u>

Variable Name: PHSDFLG **Length:** 1.0 **Position:** 31**Question Name:****Concept:** Respondent has a spouse/partner in the household**Question Text:****Universe:** All respondents

Note: This derived variable identifies respondents who declared having a spouse/partner living in the household at the relationship question.

In less than 1% of cases, respondents who reported being widowed, separated, divorced, or single (never married) at the marital status question reported, at the relationship question, that someone in their household was their husband/wife or common-law partner. For these cases, there is information for a spouse/partner at PHSDFLG, although the respondent's marital status (MARSTAT) is not married or common-law.

Source: Time Use Survey, 2022, derived from household roster (RRS3_Q15) and relationship question (RSR2_Q30).

Variable Name: COUPGEN2 **Length:** 1.0 **Position:** 35

Question Name:**Concept:** Gender+ of household couple**Question Text:****Universe:** All respondents

Note: Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses. In these cases, individuals in the category 'non-binary persons' are distributed into the other two gender categories and are denoted by the '+' symbol. The category 'Men+' includes men, as well as some non-binary persons, while the category 'Women+' includes women, as well as some non-binary persons.

The category 'No spouse/partner in the household' includes those who are not married or living common-law, as well as those who have a spouse or partner that lives outside of the household. The category 'Different-gender+ spouse/partner in the household' includes those who have a spouse or partner in the household of a different gender (e.g., man+ and woman+). The category 'Same-gender+ spouse/partner in the household' includes those who have a spouse or partner in the household of the same gender (e.g., man+ and man+ or woman+ and woman+).

Because this survey does not collect sex at birth and gender of the respondent's spouse or partner, this variable is different from that of the variable 'Gender diversity status of marriage or common-law union of person'. See documentation about the variable 'Gender of person' for more information, at statcan.gc.ca.

Question Name:

Concept: Disability indicator - Mobility

Question Text:

Universe: All respondents

Note: This derived variable indicates whether or not the respondent has a mobility disability.

A person is defined as having a mobility disability if he or she has some difficulty, a lot of difficulty, or is unable at all to either walk on a flat surface for 15 minutes without resting or to walk up or down a flight of stairs (about 12 steps) without resting and is

sometimes, often or always limited in his or her daily activities because of this difficulty.

Question Name:

Concept: Disability indicator - Pain-related

Question Text:

Universe: All respondents

Note: This derived variable indicates whether or not the respondent has a pain-related disability.

A person is defined as having a pain-related disability if he or she is sometimes, often or always limited in his or her daily activities because of this pain (regardless of the level of difficulty).

Source: Time Use Survey, 2022, derived from DSQ_01, DSQ_05, DSQ_09, DSQ_18, DSQ_19, DSQ_20, DSQ_22, DSQ_33, DSQ_36, DSQ_37, DSQ_38, DSQ_39, DSQ_40.

Variable Name: DUNK_FL **Length:** 1.0 **Position:** 53

Question Name:

Concept: Disability indicator - Unknown disability

Question Text:

Universe: All respondents

Note: This derived variable indicates whether or not a respondent has an unknown disability.

It should be noted that this unknown disability is counted only if no other limitation has been reported under the 10 specific types of disabilities listed above. It was observed

that respondents with a disability that fell under one of the 10 types tended to report the disease or condition that caused their disability under "other". Double counting of disability types was thus avoided.

The module does not ask the level of difficulty for the unknown type. A respondent only has to be limited sometimes, often or always.

Source: Time Use Survey, 2022, derived from DSQ_37, DVIS_FL, DHEAR_FL, DMOB_FL, DFLEX_FL, DDEX_FL, DPAIN_FL, DLRN_FL, DDEV_FL, DMEM_FL, DMENT_FL.

Question Name:

Concept: Disability indicator - Seeing

Question Text:

Universe: Time Use Survey, 2022, derived from DSQ_01, DSQ_03, DSQ_04.

Note: This derived variable indicates whether or not the respondent has a seeing disability.

A person is defined as having a seeing disability if he or she has some or a lot of difficulty seeing, is legally blind or blind and is sometimes, often or always limited in his or her daily activities because of this condition.

Source: All respondents

Variable Name: DDIS_FL **Length:** 1.0 **Position:** 55

Question Name:

Concept: Disability status

Question Text:

Universe: All respondents

Note: This derived variable indicates whether or not a person has a disability.

A person is defined as having a disability if he or she has one or more of the following types of disability: seeing (DVIS_FL), hearing (DHEAR_FL), mobility (DMOB_FL), flexibility (DFLEX_FL), dexterity (DDEX_FL), pain-related (DPAIN_FL), learning (DLRN_FL), developmental (DDEV_FL), memory (DMEM_FL), mental health-related (DMENT_FL), or unknown (DUNK_FL). Please refer to each specific DV for additional information.

NOTE: This variable has no residual 'not stated' category. Persons who do not have at least one disability, as defined by the specific disability status variables, are considered not to have a disability.

Source: Time Use Survey, 2022, derived from DVIS_FL, DHEAR_FL, DMOB_FL, DFLEX_FL, DDEX_FL, DPAIN_FL, DLRN_FL, DDEV_FL, DMEM_FL, DMENT_FL, DUNK_FL.

Variable Name: DCLASS **Length:** 1.0 **Position:** 57

Question Name:

Concept: Global (disability) severity class

Question Text:

Universe: Respondents aged 15 and over with a disability.

Note: Based on the global severity score, severity classes were established. Severity scores increase with the number of disability types, the level of difficulty associated with the disability and the frequency of the activity limitation. The name assigned to each class is simply intended to facilitate use of the severity score. It is not a label or judgement concerning the person's level of disability. The classes should be interpreted as follows: people in class 1 have a less severe disability than people in class 2; the latter have a less severe disability than people in class 3; and so on.

Persons without a disability (DDIS_FL=2) have a value 0 for this variable, which should be treated as not applicable.

Persons with a disability but for whom the severity is unknown (key questions were not answered making it impossible to derive the score, and hence the class) have a value of 5.

For more information on severity scores and classes, please refer to the Canadian Survey on Disability (CSD), 2017: Concepts and Methods Guide.

Source: Time Use Survey, 2022, derived from DSCORE.

Variable Name: NAIC22CY **Length:** 2.0 **Position:** 145

Question Name:

Concept: NAICS 2022 (20 categories) - Last year

Question Text:

Universe: MRW_D40A = 1

Note: This derived variable indicates the type of industry, business, or service that an employed or self-employed person's work is classified in, according to the first two digits of the North American Industry Classification System (NAICS) 2022. Respondents were asked what kind of business they worked for. With this information, the NAICS code for 2022 was determined. NAICS is a common industry classification system developed between Canada, the United States, and Mexico. NAICS 2022 Version 1.0 is the biggest revision to NAICS since 2002. The overarching theme to the updates is the digital economy. The guiding principle of these changes is to classify economic activities based on digital platforms, and those offered on other forms over the Internet, in the same groupings as their non-digital equivalents.

The Generic Statistical Information Model (GSIM) has been used for this revision to identify the types of changes made to the classification: real changes and virtual changes. Real changes are those affecting the scope of the existing classification items or categories, whether or not accompanied by changes in the title, definition and/or the coding. Virtual changes are those made in coding, titles and/or definitions, while the meaning or scope of the classification item remains the same. Some response categories were abbreviated due to space restrictions. For a full list of all industries and more information about the NAICS please visit <https://www23.statcan.gc.ca/imdb/p3VD.pl?Function=getVD&TVD=1369825>

Source: General Social Survey, Time Use, 2022, derived from MRW_D40A, WLY_Q110, WLY_Q120 and NAICS 2022.

Variable Name: NOCLBR_Y **Length:** 2.0 **Position:** 147

Question Name:

Concept: NOC 21 (10 categories) - Last year (the variant)

Question Text:

Universe: MRW_D40A = 1

Note: This derived variable indicates the occupation group that an employed or self-employed person belongs to, based on the first two digits of the National Occupational Classification (NOC) 2021.
Respondents were asked what their work or occupation was, and what their main activities were in their type of work. With this information, the 5-digit NOC code for 2021 was determined. For the full list of occupations, please consult :

<http://www23.statcan.gc.ca/imdb/p3VD.pl?Function=getVD&TVD=1322554>

The NOC 2021 Version 1.0 overhauls the "Skill Level" structure by introducing a new categorization representing the degree of Training, Education, Experience and Responsibilities (TEER) required for an occupation. The NOC 2021 Version 1.0 also introduces a new 5-digit hierarchical structure, compared to a 4-digit hierarchical structure in the previous versions of the classification. The NOC has been developed and maintained as part of a collaborative partnership between Employment and Social Development Canada and Statistics Canada. This revision is extensive; the last structural revision was NOC 2011.

In October 2023, a new variant of the NOC 2021 was introduced regrouping all management positions for all occupations under the first category. This means that all other

categories exclude management positions.

Source: Time Use Survey, 2022, derived from MRW_D40A, WLY_Q130, WLY_Q140 and NOC 2021.

Variable Name: LANHC **Length:** 1.0 **Position:** 220**Question Name:****Concept:** Mother tongue (collapsed)**Question Text:****Universe:** All respondents

Note: Mother tongue refers to the first language learned at home in childhood and still understood by the person at the time the data was collected. If the person no longer understands the first language learned, the mother tongue is the second language learned. For a person who learned two languages at the same time in early childhood, the mother tongue is the language this person spoke most often at home before starting school. The person has two mother tongues only if the two languages were used equally often and are still understood by the person.

Question Name:

Concept: Language spoken most often at home (collapsed)

Question Text:

Universe: All respondents

Note: Language spoken most often at home refers to the language the person speaks most often at home at the time of data collection. A person can report more than one language as "spoken most often at home" if the languages are spoken equally often. For a person who lives alone, the language spoken most often at home is the language in which he or she feels most comfortable.

Variable Name: INC_C **Length:** 1.0 **Position:** 222

Question Name:

Concept: Income - Total (before tax) (grouped)

Question Text:**Universe:** All respondents

Note: This derived variable represents total income of the respondent received in the calendar year 2022 from all sources before income taxes and deductions, including wages and salaries, self-employment income, government transfers, investment income, private retirement pensions and any other income, excluding capital gains or losses.

To reduce respondent burden and improve quality, the 2022 TUS income related variables are derived from respondent income tax files for calendar year 2022. Missing information for all other respondents has been imputed.

Some inconsistencies may become apparent when using income variables with other variables and care must thus be exercised. Users should be aware that Statistics Canada income definitions do not always correspond to concepts used by other organizations. For example, the definition of total income in the 2022 TUS does not correspond to that used by the Canada Revenue Agency.

Variable Name: FAMINC_C **Length:** 1.0 **Position:** 223

Question Name:**Concept:** Family income - Total (before tax) (grouped)**Question Text:****Universe:** All respondents

Note: This derived variable represents the sum of the incomes of all members of the census family received in the calendar year 2022 from all sources before income taxes and deductions, including wages and salaries, self-employment income, government transfers, investment income, private retirement pensions and any other income, excluding capital gains or losses. 'Census family' refers to a married couple (with or without children of either and/or both spouses), a common-law couple (with or without children of either and/or both partners) or a lone parent of any marital status, with at least one child.

To reduce respondent burden and improve quality, the 2022 TUS income related variables are derived from respondent income tax files for calendar year 2022. Missing information for all other respondents has been imputed.

Some inconsistencies may become apparent when using income variables with other variables and care must thus be exercised.

Users should be aware that Statistics Canada income definitions do not always correspond to concepts used by other organizations. For example, the definition of total income in the 2022 TUS does not correspond to that used by the Canada Revenue Agency for income tax purposes.
